Subject :Announcement of Price increase

Dear Customer,

KOLON PLASTICS, INC. has announced a price increase effective as of March 1st, 2018 for POM, or as contracts allow. We did every efforts we could to avoid raising our price but it is no longer possible to deny the fact due to increasing cost.

For these reasons, we've made an inevitable decision to announce a price increase as listed below.

Product	Euro/MT	USD/MT	GBP/MT
KOCETAL®	200	250	180

Orders received and shipped prior to March 1st will be at the current price levels. Orders received and shipped on or after March 1st will be at the increased price.

If you have any questions or requests of additional information, please do not hesitate to contact us. As always, we will continue to strive to provide the best-quality products and services for you.

Sincerely yours,

Yuri Suh
